## 40AC series casement

### ADVANTAGE OF THIS SERIES

This series aluminum casement window can be applied in resident house, office building and especially the villas nearby the sea or island, because of the big wind surroundings, we always need to have the window which is well sealed, choose this series with frame extra covering on the wall, make the window and the wall between no gap to protect from rain permeated into the wall, to avoid noisy under big wind circumstance as well, 40AC from lingyin make your installation easy and neat

### Visual expand

With frame cover on the wall, it will make ur window look bigger than its actually size, for example this window from wall to wall size is 1.4mX1.4m, but when you take measure from frame to frame, it will be 1.8mx1.8m

### Usage

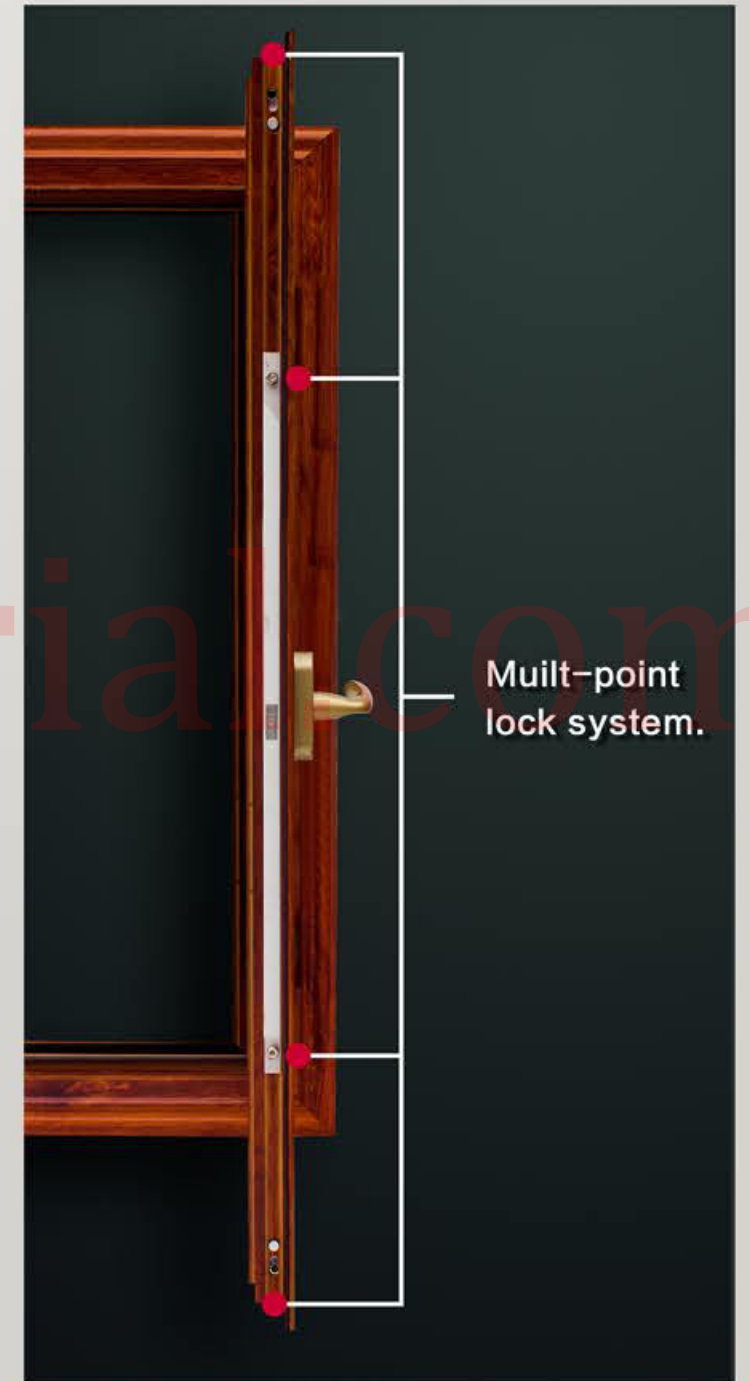

- powder coated finish
- Thickness 1.4mm
- With arch frame cover on the wall
- Single or 5mm+9A+5mm double glazing
- Mult-point lock system
- BV (bureau veritas) certificated
- Color :white/golden/champange/golden oak
- Open way: Casement / tilt-turn

# Usage

- better air ventilation than sliding window
- middle aluminum pillar REMIND PEOPLE PAY ATTENTION TO OUTSIDE
- applied in HIGHER FLOOR in the building
- For good looking , u can also choose to remove this pillar

## 50 series tilt turn window

### ADVANTAGE OF THIS SERIES

Tilt-turn window not only contains good ventilation as casement window, it also gives you fresh air even at night, yes you can tilt open it even at night, with special accessories no their can go thought under this open, this design especially popular at higher floor in hotel project.

### Size limitation

For tilt and turn window, every single open leaf have size limitation,  $400\text{mm} \leq \text{width} \leq 750\text{mm}$ ,  $\text{height} \leq 1200\text{mm}$ , under this dimension can maximize the good using experience and also expand the long service life of accessories.

### Usage

- Thickness 1.4mm
- Aluminum grill design
- 5mm+9A+5mm or 5mm+12A+5mm double glazing only
- HOPO accessories applied
- BV (bureau veritas) certificated
- Color :white/coffee/dark grey/champange /golden oak/walnut/scentedwood

# 50 series casement door

- Thickness 1.4mm
- 5mm+9A+5mm low-e double glazing
- grill design
- HOPO accessories
- Three hinges per door leaf
- Color :white/coffee/dark grey/champagne /golden oak/walnut/scentedwood

● Door latch both at top and bottom frame of the door; if bottom no frame, latch still can fix at the floor

● **HOPO lock & key system**

● Bottom door frame give better support of two casement door leaf ; No bottom frame is available too

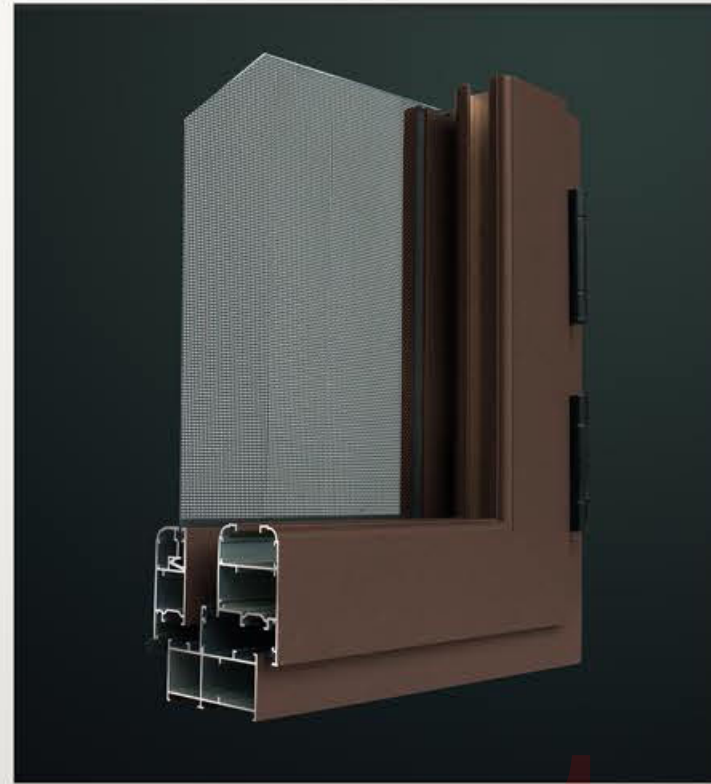

## 80 series 2 in 1 casement window with steel net

### ADVANTAGE OF THIS SERIES

80 series 2 in 1 casement window is newest window structure design, inside open security net sash and outside open glass sash share one window frame, 2 units combine in 1 window, give you more fresh air even at night and elegant performance.

### Color stability

This powder coated matt gloss finish dark brown( and dark grey)are the most stable color series among all the powder coated finish colors in aluminum profile, because of color deeply going inside , its face is even rough , and it can last more than 40 years no fading.

### Usage

- Powder coated finish
- Thickness 1.4mm
- Aluminum grill design
- 5mm+9A+5mm or 5mm+12A+5mm double glazing only
- LINGYIN accessories applied
- BV (bureau veritas) certificated
